

Call for conference participation and poster contributions

We are pleased to announce the **3rd International Workshop on Insect Bio-Inspired Technologies** that will take place at the Royal Society of Edinburgh (Edinburgh, Scotland, UK) on the 17th and 18th of November 2022.

Sessions will cover locomotion on ground, in air and water; sensors; tiny brains on chip; catapult and spring; and bio-inspired materials.

Details regarding the Workshop (venue, speakers, registration and programme) can be downloaded at the following website URL link:

<https://insect-bioinspired-edinburgh-2022.org>

Prestigious plenary speakers include:

Dr David LABONTE (Imperial College London, UK)
Dr Huai-Tin LIN (Imperial College London, UK)
Prof. Alexander BORST (Max Planck Institute, Germany)
Dr Beth MORTIMER (University of Oxford, UK)
Dr Stanley HEINZE (Lund University, Sweden)
Dr Shyam GOLLAKOTA (University of Washington, USA)
Dr Sebastian BÜSSE (Kiel University, Germany)
Prof. Yaël POLITI (Technische Universität Dresden, Germany)
Prof Thomas SCHEIBEL (Universität Bayreuth, Germany)

The Workshop is calling for Contribution for Posters. Please do send a one-page abstract of your poster with pictures. Please do send your abstract at the following Email address:

Insect-Technologies-2022@hw.ac.uk

Deadline for submission is the 10th of October 2022. A response regarding the acceptance of the poster will be provided within a week.

The workshop will also celebrate the 80th birthday of Prof. Julian VINCENT, one of the pioneers of bio-inspired engineering in the UK, who will give a talk about his lifetime work on insects.
