

Friends of Jerrabomberra Wetlands ParkCare Group

ParkCare is a partnership between community volunteer groups and the ACT Government, formed to care for local nature reserves and Namadgi National Park. There are many ParkCare groups in the ACT. All have a keen interest in conserving and promoting Canberra’s natural areas. ParkCarers are involved in weeding, revegetation, track construction and repair, plant identification, surveys and public education.

The Friends of Jerrabomberra Wetlands ParkCare group have regular activities. Meet at Dairy Road car park. See table for details.

Upcoming Activities	Date	Time
