

A Superb Day Out

Annual count of Superb Parrots along the Murrumbidgee River

The annual census is back again in 2020 and we need your help! Come along for a morning of bird watching in beautiful surrounds and help us to understand the size of the population of Superb Parrots along the middle reaches of the Murrumbidgee River.

Activities

Participants will learn about the breeding and feeding requirements of Superb Parrots and be invited to monitor their spring breeding distribution. Previous bird watching experience is useful but not essential, guidance and instructions will be provided on the day. Please bring along a comfortable chair, clip board, water bottle, snacks, hat, sturdy shoes and binoculars (if you have them). Participants will be invited to survey at nominated locations along the river, then return to debrief and enjoy a complimentary lunch.
